

Voyager 4–S Fly Away Case

The Voyager 4–S fly away case is a wheeled, rugged, and weatherproof airline sized carry-on transit case that supports a Voyager 4–S (4 slot) chassis.

The transit case has an integrated power supply and space to power up to four standard sized Voyager modules.

KEY FEATURES

- Supports the Voyager 4–S chassis carrying four standard sized Voyager modules with Voyager 1+ UPS attached
- Integrated UPS to power a Voyager 4–S chassis
- Removable side panels for access to modules and power input
- Impact-resistant injected moulded case, with quiet-glide wheels and retractable pull-h
- Gasket-sealed front and rear doors

Voyager 4-S Fly Away Case
